Professional Profile

Software Engineer with over 3 years of experience developing technological solutions through academic and personal projects, specializing in e-commerce platforms and digital services. Strong skills in frontend and backend development, database management, and version control tools. Committed to excellence and quality in every delivery, with strong analytical skills and focused on professional growth in the technology sector

Experience in prominent projects

E-Commerce Project   (May 2025-August 2025)

• I developed a complete web application for an e-commerce platform, using Angular for the user interface and Node.js with TypeScript on the server side. I implemented key modules such as user registration and authentication, product management, order tracking, a review system, and promotion management.

• I structured and managed advanced relationships in a MySQL database using Prisma, optimizing query performance and ensuring data integrity and consistency.

• I implemented a modern and accessible design using Angular and Tailwind CSS, guaranteeing a responsive, attractive, and optimized interface for a seamless user experience across various devices.

Cruise Management Project   (January 2025-April 2025)

Full Stack Developer

• I developed a web platform for cruise management and booking using the MVC architectural pattern, with ASP.NET and Razor. The system incorporated modules for ship, cabin, and add-on maintenance and administration, facilitating efficient and centralized operations management.

• I developed and optimized the server-side business layer, improving the efficiency of booking management and availability control processes, using Microsoft SQL Server for data handling and persistence.

• I implemented dynamic validation in forms using JavaScript and ensured data consistency through the correct definition of relationships and constraints in the database.

Academic Background

Bachelor's degree in software engineering – UTN Present
Diploma in Information Technologies – UTN 2023-2025 (Graduation Pending)
High School Diploma – Liceo León Cortes Castro 2022

Certifications

- Discovering Entrepreneurship – Cisco NetAcad 2025
- JavaScript Essentials 2 – Cisco NetAcad 2025
- JavaScript Essentials 1 – Cisco NetAcad 2024
- Networking Basics Cisco NetAcad 2024
- Network Addressing and Basic Troubleshooting Cisco NetAcad 2024
- Academic Process Mining Fundamentals - Celonis 2024
- Python Essentials 1 – Cisco NetAcad 2023

Technical Skills

- HTML
- CSS
- JavaScript
- TypeScript
- C#
- Python
- ASP.NET Core
- Node.JS
- MySQL
- SQL Server
- React
- Angular
- Prisma
- Tailwind CSS
- Bootstrap

Languages

English B1
Native Spanish speaker
